

Live Demos at Booth #G11

Learn about Sim4Life's latest features, how the software can speed up your design, and how you can perform your ISO 10974 Tier 2/3 MRI implant safety analysis in minutes instead of months. In addition, experience S4L^{lite} – our new, cloud-based version of Sim4Life that is free-of-charge for students and lecturers. We look forward to welcoming you at Booth #G11!

Monday, June 5, 2023

- 12:30 Novelties Unraveled – Features in Sim4Life that Advance your R&D
- 12:45 pTx Array Design and Safety Consideration
- 13:00 pRx Array Optimisation – MUSAIK
- 13:15 S4L^{lite} – *In silico* Modeling & Simulation Anytime, Anywhere

Tuesday, June 6, 2023

- 12:15 Novelties Unraveled – Features in Sim4Life that Advance your R&D
- 12:30 AI-Based Automatic Head Segmentation & Sim4Life Routines Toolbox
- 12:45 ISO 10974 Tier 2/3 Analysis with IMAnalytics
- 13:00 S4L^{lite} – *In silico* Modeling & Simulation Anytime, Anywhere
